POSTMAN

JEST

EXPERIENCE

Software Engineer

Softosys Nov 2022 - Present

Key Responsibilities

- Developed and maintained stable codebases using React and Next.js for scalable and efficient web applications.
- Implemented new features and functionalities, contributing to the continuous improvement of the website's user experience.
- Conducted timely bug fixes, ensuring a smooth and error-free user experience.
- Participated in code review sessions to maintain code quality and adherence to best practices.
- Utilized Jest for comprehensive testing of React components, ensuring their reliability and functionality.
- Conducted API testing to guarantee seamless integration and functionality between the front-end and backend services.

React Developer Intern

Meraki Techs , kathmandu Oct 2021 - Apr 2022

Key Responsibilities

- Learning React JS technology
- Creating reusable UI components using React with Typescript
- Learning different npm packages
- creating simple React projects

PROJECTS

softosys-web

UI Developer

- Designed and developed a visually appealing and responsive company

introduction website using HTML, CSS, and Bootstrap.

- Addressed and resolved challenges related to design, responsiveness, and compatibility to deliver a polished and professional website.
- Demonstrated a commitment to staying updated with industry trends and technologies, incorporating new skills such as Next.js for improved web development practices.
- Delivered a successful company introduction website that met project requirements, contributing to a positive online presence for the organization.

mymatchhub-web

UI developer

- Utilized a modern technology stack including Next.js, React, Redux, Bootstrap, Tailwind CSS, and various other libraries for efficient and scalable development.
- Implemented a responsive design strategy using Bootstrap and Tailwind CSS to ensure accessibility across diverse devices and screen sizes. Integrated FontAwesome for a visually appealing user experience. Implemented efficient and controlled form development using "react-hook-form." Integrated "react-image-crop" and "react-image-file-resizer" for advanced image processing and cropping functionalities within the application. Employed "react-redux" along with "@reduxjs/toolkit" for seamless and interactive state management.
- Implemented Jest for unit testing to ensure the reliability and correctness of the codebase, adhering to best practices in software testing.
- Focused on creating a user-friendly and intuitive matrimony platform, prioritizing user experience and satisfaction.

helperprofiles-web

UI Developer

- Implemented internationalization (i18n) for supporting multiple languages in the HelperProfiles website, enhancing accessibility for a diverse user base.
- Developed a comprehensive profile management system for both helpers and employers, allowing for easy searching and hiring.
- Implemented robust search functionality to facilitate easy and quick discovery of suitable helper profiles based on user preferences and requirements.
- Integrated "react-hook-form" for efficient and controlled form development, ensuring a smooth user experience during profile creation and editing. Implemented state management using "react-redux" and "@reduxjs/toolkit" to handle complex data interactions and provide a seamless user experience.
- Implemented unit testing using Jest to ensure the reliability and stability of the application, identifying and addressing potential issues early in the development process.
